PROFESSIONAL SUMMARY

Registered Mechanical Engineer with over 7 years of experience in mechanical construction, cost estimating, quantity surveying, and utility relocation. Currently serving as Engineer II for the Department of Transportation (DOTr) on the Metro Manila Subway Project. Skilled in HVAC design, ISO 17065 compliance, and coordination with government agencies and private stakeholders. Experienced in both local and international projects, including mechanical estimation for U.S. Army base facilities in Okinawa, Japan. Known for strong analytical thinking, attention to detail, and clear communication across cross-functional teams. Proactive, adaptable, and committed to delivering high-quality results in complex infrastructure environments.

EXPERIENCE

Engineer II

Department of Transportation (Metro Manila Subway Project)

December 2024 – Present

- Coordinate with utility agencies, contractors, and consultants to ensure timely relocation of affected utility lines along MMSP alignment.
- Review technical drawings, relocation plans, and method statements for compliance with engineering standards.
- Facilitate joint site inspections (JSI) and technical coordination meetings with stakeholders, including LGUs and concessionaires.
- Monitor on-site activities, resolve field issues, and ensure relocation works align with overall project timelines.
- Ensure compliance with safety, environmental, and quality standards during utility works.
- Facilitate drafting correspondences, memos, and engineering documentation required for permits and approvals.

Technical Assessor

Intertek Testing Services Philippines, Inc.

April 2021 – December 2024

- Managed client applications under ISO 17065, ensuring conformity for mechanical, electrical and construction products.
- Reviewed engineering documents, testing reports, and compliance files for local and international markets.
- Facilitated communication between engineering teams and international certification bodies.
- Provided clients, through customer service representatives, with technical guidance on regulatory frameworks and certification processes.

Jr. Mechanical Engineer

EV Sinogba Consulting Engineers

March 2020 – November 2020

- Evaluated mechanical design revisions and prepared detailed cost estimates for US Army facilities in Okinawa, Japan
- Estimated HVAC, plumbing, sanitary, and fire protection systems for residential and mid-rise projects.
- Supported preparation of BOQs and cost proposals for bidding documents.
- Developed Excel-based templates to improve speed and accuracy in estimating workflows.

Mechanical Engineer

New San Jose Builders, Incorporated

February 2019 – February 2020

- Supervised installation and testing of plumbing, and fire protection systems for high-rise projects.
- Coordinated with project engineers and suppliers to resolve technical issues on site.
- Contributed to quality control during testing and commissioning stages.
- Key Projects: Victoria Sports Tower, NAMRIA Housing Project.

Quantity Surveyor

FR Sevilla Industrial and Development Corporation

May 2018 – August 2018

- Prepared cost estimates and quantity take-offs for HVAC system installations.
- Reconciled scope and quantities with general contractor QS teams.
- Supported pre-construction budgeting and procurement processes.
- Key Project: MDC Headquarters.

Cadet Engineer

Sobida Motors Corporation

February 2017 – April 2018

- Supervised 50+ skilled workers in two production processing lines.
- Set and monitored daily production schedules to meet and exceed output targets.
- Improved efficiency by optimizing manpower and process layout.
- First cadet to handle dual processing areas simultaneously.

EDUCATION

Bachelor of Science in Mechanical Engineering

Polytechnic University of the Philippines – Manila

CERTIFICATIONS AND LICENSES

Registered Mechanical Engineer

Professional Regulation Commission

September 2016

Certified Lean Six Sigma Yellow Belt

Process Doctors Academy

July 2022

Civil Service Professional, CSE

Civil Service Commission

May 2015

LANGUAGES

Filipino – Native

English – Fluent

TECHNICAL SKILLS

- Utility Relocation Planning
- Cost Estimating & Budgeting
- Quantity Take-Off (QTO)
- Construction Supervision
- ISO 17065 Conformity Assessment
- AutoCAD Drafting
- Microsoft Excel (Advanced Formulas, Templates, Lookups)
- MS Office (Word, PowerPoint, Outlook)
- Technical Documentation & Reporting
- Testing & Commissioning of Mechanical Systems
- Project Coordination & Scheduling

SOFT SKILLS

- Strong Analytical Thinking
- Attention to Detail
- Team Collaboration
- Verbal and Written Communication
- Time Management
- Adaptability in High-Pressure Environments
- Problem-Solving and Root Cause Analysis
- Accountability and Ownership
